Lambs are placed according to Boneless Closely Trimmed Retail Cuts (%BCTRC).

They are ranked highest BCTRC to lowest.

A lamb must have at least .15 inches of backfat to be in the blue ribbon group.

Muscle to fat to weight proportion

HCW = Hot Carcass Weight (estimated 50%)

LMA = Loin Muscle Area

BW = Body Wall (estimated body wall measurement)

Dress % = Dressing Percentage (estimated carcass weight divided by live finish weight)

Live Wt = Live Weight/Finish Weight

Backfat = 12th Rib Backfat

QG = Quality Grade
